

Exercises

If you have any questions in this exercises: you can consult these links:

- [Elixir Docs](#)

1. The boolean `true` is an atom?

```
iex> true == :true  
?
```

2. How I do string interpolation in Elixir?

3. This code will work? Why?

```
iex> a = [1, 2, 3]  
iex> a ++ [4, 5]  
iex> assert(a == [1,2,3,4,5])
```

4. We have an question for you guys. What the difference between a List and a Tuple?
